Finn Schoenmakers

Game Design Student · Level Design · 3D Art

Venlo, Netherlands fischoenmakers@gmail.com finnschoenmakers-gamedesign.com LinkedIn

PROFILE

Game Design student at Fontys University of Applied Sciences, focused on level design, 3D art, and environment creation. I develop ideas into playable spaces through route planning, blockouts, and iteration, with an interest in making clear and memorable experiences for players.

SELECTED PROJECTS

Sublevel
Team game · Level design, environment blockout, and lighting

Planned a connected bunker route and developed it through in-engine blockouts, testing scale, atmosphere, and player navigation.

Project Splitstar
Team game · Level design, environment, visual effects, and UI

Designed room progression for a 2.5D shooter, shaping encounters around movement, readability, and combat flow.

Target Shooter
One-week prototype · Gameplay and rapid iteration

Built the shooting mechanic and target behavior, refining immediate hit feedback and a focused aim-training loop.

SKILLS AND TOOLS

- Level design
- Unreal Engine 5.6
- Environment blockout and lighting
- Visual effects and UI
- 3D art
- Blender
- Gameplay prototyping

WORK EXPERIENCE

Climbing Instructor & Rescue Team Member
Fun Forest Venlo · Current

Work as a climbing instructor and as part of the rescue team.

EDUCATION

Fontys University of Applied Sciences
ICT · Specialisation in Game Design · 2024–2028 (expected)
