Finn Schoenmakers

Game Design Student · Seeking a Game-Design Internship

Venlo, Netherlands fischoenmakers@gmail.com finnschoenmakers-gamedesign.com LinkedIn

PROFILE

Game Design student at Fontys University of Applied Sciences with hands-on experience designing and blocking out levels, iterating on gameplay, and building prototypes in Unreal Engine. Seeking a game-design internship where I can contribute player-focused design, practical problem-solving, and a willingness to learn.

SELECTED PROJECTS

Sublevel
Team game · Level design, environment blockout, and lighting

Designed a connected bunker route and developed it through in-engine blockouts, testing scale, atmosphere, and navigation.

Project Splitstar
Team game · Level design, environment, visual effects, and UI

Contributed level design, environment work, visual effects, and UI to a 2.5D shooter; planned and tested room progression.

Target Shooter
One-week prototype · Gameplay and rapid iteration

Built the shooting mechanic and target behavior, then iterated on hit feedback and the focused aim-training loop.

SKILLS AND TOOLS

Design: Level design, environment blockout, lighting, gameplay prototyping, iteration

3D: 3D art, Blender

Engines: Unreal Engine 5.6, Unity

Other tools: Visual Studio Code, GitHub

WORK EXPERIENCE

Climbing Instructor & Rescue Team Member
Fun Forest Venlo · November 2022–Present

Started as an intern in November 2022 and joined the staff in spring 2023. Currently work as a climbing instructor and rescue-team member.
